EDUCATION

Bachelor degree in progress
CVUT - FIT
09/2025 - Present

Software Development
IT STEP Computer Academy
12/2022 - 06/2025

IT Essentials Certificate
Cisco Networking Academy
Obtained during IT STEP studies

SKILLS

- Unreal Engine 5 / Unity
- C++ & C#
- UE Material Editor / Shaders
- Asset Pipeline Optimization
- 3D Modeling (Basics)
- Python Scripting
- Git / GitHub

LANGUAGES

Ukrainian	Native
English	B2
Czech	B1

Summary

Passionate Junior Technical Artist and QA with a strong programming foundation in C++ and C# (IT STEP Academy) and hands-on experience in Unreal Engine 5. Skilled in optimizing 3D asset pipelines, configuring materials/shaders, and conducting rigorous manual testing for game stability. Fast learner, currently expanding expertise in rendering pipelines, eager to bridge the gap between art and programming in AAA game development.

Experience

Indie Game Tech Artist & QA

Indie Game Studio (Freelance)

Ukraine | 01/2023 - 08/2025

- Integrated, configured, and optimized 3D models and textures within Unreal Engine 5 and Unity asset pipelines.
- Worked with Unreal Engine's material systems to create shaders and visual effects for game environments and cinematics.
- Conducted rigorous QA testing of builds, identifying collision bugs, rendering issues, and performance bottlenecks prior to Steam releases.
- Troubleshot engine-specific technical issues, acting as a bridge between visual requirements and technical constraints.

Mobile E-commerce App (Alza-style)

Sellpoint (Team Project)

2024 - 2025

- Participated in the development of a mobile platform with a team of 5 members, focusing on technical implementation and logic.
- Collaborated via GitHub for version control, conducting code reviews and regression testing before merging branches.
- Managed project tasks and sprint assignments using Agile methodologies (Trello, Jira).
